EDUCATION

Qualification	Institution / Board	Year	CGPA / %
Master of Computer Applications (MCA)	Ganpat University Gujarat	2025 – Present	–
Bachelor of Computer Applications (BCA)	NIMS University Rajasthan	2022 – 2025	6.92 CGPA / 64.61%
Class 12th	Vardaan School Dungarpur	2021	92.00%
Class 10th	Vardaan School Dungarpur	2019	75.50%

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript, SQL

Frameworks & Technologies: Flutter, Firebase, REST APIs, HTML, CSS

Tools: VS Code, GitHub, Figma, Android Studio

Concepts: API Integration, UI/UX Principles, Object-Oriented Programming

INTERNSHIPS

Python Programming Intern

Jan 2025 – Apr 2025

CodeAlpha

- Developed Python Voice Assistant and interactive puzzle games.
- Worked on automation scripts, chatbot development, and Python-based applications.
- Applied object-oriented programming and debugging concepts in real-world projects.

PROJECTS

RoomZo – PG Finder App

2026 Jan – Present

Flutter, Firebase, Google Maps API

- Developed a student-focused PG accommodation finder mobile application using Flutter.
- Integrated Firebase Firestore for real-time PG listing and data management.
- Implemented search, filters, favourites, and dark mode functionality.
- Added Google Maps integration to display PG locations and nearby areas.
- Designed responsive and modern UI for improved user experience.

Weather App

Dec 2024 – Jan 2025

HTML, CSS, JavaScript

- Created responsive weather dashboard using live weather API.
- Displayed real-time temperature, humidity, and wind data.

Browser OCR

May 2026

HTML, CSS, JavaScript, Tesseract.js, PDF.js

- Developed a browser-based OCR web application capable of extracting text from images and PDF files.
- Integrated Tesseract.js and PDF.js for multilingual text recognition and PDF text extraction.
- Implemented client-side processing for enhanced privacy with no server-side uploads.
- Added copy/download functionality and responsive Bootstrap-based UI.

Python Voice Assistant

Feb 2025

Python, SpeechRecognition, pyttsx3

- Built voice-controlled assistant for app opening and web search.
- Implemented speech recognition and text-to-speech features.

CERTIFICATIONS

- AI For Everyone – DeepLearning.AI
- Professional Learning on Python – Infosys Springboard
- Python Programming Internship – CodeAlpha
- Web Development Internship – CodeClause
- Google Ads Search Certification – Google Skillshop
- Tata Group Data Visualisation Job Simulation – Forage
- RS-CIT – Vardhman Mahaveer Open University

ACHIEVEMENTS

- Developed and deployed multiple real-world projects including RoomZo, Weather App, Browser OCR, and Python Voice Assistant.
- Completed Python and Web Development internships with hands-on experience in automation and APIs.
- Earned certifications from DeepLearning.AI, Google Skillshop, Infosys Springboard, and Forage.
- Scored 92% in Class 12th and completed RS-CIT certification with 88%.
- Built and managed projects using Flutter, Firebase, Python, and JavaScript technologies.
